## CA Fastigheter AB 'BBB-' long-term issuer rating affirmed; Outlook stable

Nordic Credit Rating (NCR) has affirmed its 'BBB-' long-term issuer rating on Sweden-based property manager [CA Fastigheter AB](#). The outlook is stable. At the same time, NCR affirmed its 'N4' short-term issuer rating.

### Rating rationale

The affirmation reflects continued performance in line with our expectations. We expect CA Fastigheter's net loan to value (LTV) to increase temporarily due to the acquisition of Lidingö shopping centre (Lidingö Centrum) in early 2025 and continued high project investments, before stabilising over our forecast period through 2027 as development projects are finalised.

The long-term issuer rating reflects our view of the company's relatively low financial gearing, diversification benefits from its share of residential properties and low tenant concentrations in its commercial portfolio. It also reflects our expectation that the residential rental market will remain strong and that CA Fastigheter will continue to increase rental income from its commercial portfolio and completed projects.

These strengths are offset by the company's active project and development activities and associated capital expenditure, which create cash flow volatility and have a higher risk than pure property management. We also view CA Fastigheter's intra-group lending and short debt maturity profile with large single-year maturities as credit weaknesses in our standalone assessment. We consider CA Fastigheter's market position to be modest, given the relatively small portfolio in most of its core geographic locations.

### Stable outlook

The stable outlook reflects our expectation that CA Fastigheter's credit metrics will temporarily weaken due to its acquisition of Lidingö shopping centre (Lidingö Centrum) in early 2025 and increased capital spending on projects. However, we assume its credit metrics will remain above our potential negative rating drivers during our forecast period through 2027. We expect CA Fastigheter will complete the sale of current tenant-owned property projects and will continue to generate stable cash flow. We believe the company will experience limited impact from slightly higher vacancies in its portfolio due to the weak macroeconomic environment.

We could raise the rating to reflect improved credit metrics (EBITDA to net interest sustainably over 3.5x and net LTV sustainably below 35%) or to reflect reduced risk appetite and an extended debt maturity profile.

We could lower the rating to reflect increased financial gearing (net LTV at levels sustainably over 50% or EBITDA to net interest below 2.2x over a protracted period), deteriorating market fundamentals that affect occupancy and/or profitability, or to reflect increased lending exposure to, or deteriorating credit quality of, its owner CA Group.
